Ramona & Renee:

As you probably know Dominion on behalf of Duke Energy, Piedmont Natural Gas, AGL Resources and itself, has proposed the Atlantic Coast Pipeline (ACP) to bring natural gas from West Virginia to markets in Virginia & NC.

Dominion is responsible for planning, avoiding and minimizing impacts to natural & cultural resources. Dominion has contracted with The Conservation Fund to assist it in securing high quality mitigation for unavoidable impacts.

Dominion met with NC environmental regulators and WRC in Raleigh on 7/20 and would like to meet with appropriate folks at DCR. Dominion will be back in NC in August to meet with Division of Air Quality. Are there some good days in August when DCR staff would be available?

I can send you the PPT presentation that Dominion shared with DENR folks if you'd like.

Thanks.

Bill
